A MESSAGE FROM THE PREMIER

On behalf of the Province of Manitoba, it is an honour to recognize and celebrate Staffing for Canada Week from June 1st to June 7th, 2009.

In these challenging economic times, ensuring that our businesses and industries are fully staffed and fully trained is more important than ever. For this reason, the pool of talented workers maintained by our staffing services is essential, as it is through the hard work of these individuals that we will overcome the challenges we face.

I would like to thank everyone involved with staffing services in Manitoba, including our temporary employees, for consistently meeting the demands of our changing economy.

Congratulations and best wishes.

A handwritten signature in black ink, reading "Gary Doer".
