

My Exceptional Experience

My name is Alan Mares Michaud and I'm not applying to win or to receive a price. I just want to share my experience with TAG as it has been simply the best and I'm very grateful.

I'm a Canadian citizen and after more than seven years of living outside the country, I decided to come back to Canada. I decided to try a new city as I heard very good things about Calgary.

At the beginning, it was really difficult as I didn't know anyone in the city and I was barely able to pay my bills. I applied for many jobs for months with no luck. I didn't even get an interview when I decided to contact TAG and see what they could offer.

Steven replied in a very short period of time and gave me an interview in order to get to know me better, to understand my situation and what I was looking for. He was very professional, friendly and appreciated my situation since the beginning. I felt really comfortable talking to him (almost like a shrink LOL), the beautiful office and the way he explained the process and the positions he may have for me. He even helped me fixing my resume according to the Canadian recruiting processes.

Since the first week I visited TAG's offices, he was constantly in contact with me giving me updates about possible jobs for me until finally I've got the chance to represent TAG in a company. Since that day, I've got many hours and many days in the same company where I felt appreciated and helpful. Steven was always in contact with me, checking my availability and if everything was OK. (Always looking for my best interest).

I always received a detailed email with my payment details the day before my payment (which I always received correct and on time).

Since TAG gave me the opportunity to prove myself in a company, I was always trying to make TAG look good as I was representing them. Since then, I started getting my confidence back and at the same time I was working as hard as possible to feel productive, that I was really earning my money by doing something right for the company and that I was really grateful for the opportunity I've finally got.

Some weeks after I started with TAG, I received a call from a company for an interview and I've got the position. I immediately I contacted Steven to give him the good news and he seemed very happy for me. He asked me if I wanted to continue representing TAG on my days off which I of course said yes. I continue representing TAG every time I can and this way I hope I can demonstrate how grateful I am and at the same time this opportunity helps me getting back on my feet, I keeping myself busy and making some extra money.

Again, this letter is just for others to hear my experience and to encourage them to always appreciate the opportunities. To believe in themselves and always, always give the best in whatever they do as somehow they choose to do it. I believe these opportunities give you the tools or the chance to prove yourself and others what are you capable of doing. To me, that's the key to happiness and success!

Thank you!
